

SOFTWARE DEVELOPER – W/ ROKU EMPHASIS

An exciting opportunity has just opened up! We are looking for a skilled Mobile/OTT Developer to join our growing team. The candidate will be working on new streaming applications for Roku, Apple TV, and Fire TV.

Requirements of the Roku Developer:

Experience developing applications for Roku using Bright script.

Any experience developing applications for Apple TV using tvOS, for iOS using Objective-C/Swift, or for Fire TV would be considered a huge plus.

Continuous Build and test automation experience

Experience with iOS Media Player, streaming, and/or DRM technologies.

Responsibilities of the Roku Developer:

Design and build advanced applications for CTD iOS / tvOS, Roku, and Fire TV platforms. Collaborate with cross-functional teams to define, design, and ship new features. Unit-test code for robustness, including edge cases, usability, and general reliability.

Compensation & Work Hours:

- Salary range related to experience.
- Full time position at 40 hours a week with some weekend and evening work required.
- You may submit your resume & work history along with salary history and requirements to be considered. E-MAIL ONLY.
